

# PAWED Mobile Spay/Neuter Clinic Hits to Road!

The PAWED Mobile Spay/Neuter Clinic made its debut in Georgetown on Sunday, July 17, 2011! This would be the first time the Mobile Clinic offered low cost spay and neuter services to privately owned pets. The ALL volunteer clinic medical staff included Randy Robinson, DVM (Missouri Flat Pet Clinic) and his RVT, Ysabel Baca and Vet Assistant, Shannon Quinn. Joining them were 10 PAWED volunteers for intake/discharge, recovery supervision and clinic maintenance/operations. A total of 14 large dogs (largest was a 150 pound Anatolian Shepherd) were scheduled on that first day and amazingly everything went smoothly and all the dogs were resting at home with their families by day's end.

The learning curve proved to be a bit of a challenge but PAWED volunteers rose to the occasion as they always do. Increasing the volunteers to 20 per clinic helped manage the constant flow of dogs both large and small for a total of four more clinics which were held once a month ending on the 20th of November 2011, in bone chilling temperatures.

These 5 clinics are a true testament of the passion and dedication PAWED volunteers have had for the past 5 years to get our Mobile Clinic completely renovated and on the road and into the community. Yes it has been a long road to get here and there is a long road ahead--but it is truly worth every minute! We look forward to 2012 and getting our Clinic back on the road serving outlying communities and providing very low cost altering services.

Check out our Clinic photos marking the beginning of this important service coming to El Dorado County!
